Procurement, Finance & Logistics: Purchase order management, vendor payment coordination, shipment documentation, invoice routing, packaging & label compliance

Product Operations: Product launch management, NPI documentation, product content coordination, inventory planning, post-launch support

Leadership: Cross-functional stakeholder management, Process improvement, SOP development, Executive communication

Tools: GitHub, Primer, Zaphod, Brightcove, Microsoft Office, Inkscape

PROFESSIONAL EXPERIENCE

Marketing Communications Specialist

Nov 2023 – Present

Mouser Electronics (Crowd Supply)

Bengaluru, India

Functional scope: Business Operations, Vendor Operations, Trade Compliance & Product Launch Management

Vendor & Creator Onboarding

- Onboard 100+ independent hardware creators as Mouser vendors, owning the full cycle from campaign close through manufacturing, inbound shipment, and product listing.
- Collect and validate vendor documentation – agreements, tax forms, banking details, and logos – reconciling names across tax and banking records before submitting for activation.
- Coordinate OFAC screening and vendor risk assessments with the Trade Operations team ahead of every onboarding.
- Maintain creator documentation and communications in GitHub repositories, sustaining accurate, audit-ready vendor and product records.

Trade Compliance & Classification

- Partner with the Trade Compliance team to secure HTS and ECCN codes for every creator product entering international distribution; update internal systems and relay results to creators via GitHub Issues.
- Facilitate RoHS compliance verification across all creator products, ensuring regulatory readiness for global markets.

GTM, NPI & Launch Operations

- Execute 300+ product listings on Mouser.com – owning specification intake, part build sheet preparation (costing, descriptions, image links), and platform readiness through to live publication.
- Partner with the Product Content team to bring listings up to Mouser’s editorial standards; raise Product Content Requests for microsite creation to strengthen creator discoverability.
- Manage post-launch product lifecycle activities including pricing updates, tariff corrections, specification revisions, and image updates.

Procurement & Finance

- Initiate Purchase Orders on campaign close, coordinating with Purchasing to process each PO for the exact amount raised during the funding period.
- Coordinate procurement and finance activities including Purchase Order processing, vendor payments, invoice validation, and payment reconciliation.

Logistics & Shipment Coordination

- Share packing list and invoice templates with creators via GitHub Issues, setting clear documentation requirements for every inbound shipment.
- Review and approve product label samples and carton specifications ahead of shipping to confirm compliance with Mouser’s packaging standards.
- Route shipment tracking to Logistics and invoices to Finance on every creator dispatch.

Inventory & Post-Launch Support

- Designed and proposed a post-launch inventory monitoring process – tracking stock levels to flag replenishment ahead of depletion – that earned management approval and was adopted as standard practice.
- Manage post-launch creator communication, confirming go-live status and advising on inventory planning.
- Serve as the primary contact for MOQ, lead time, and shipping date queries from Mouser’s corporate inventory team, liaising with creators to deliver accurate responses.

Management Trainee – Marketing

Aug 2019 – Jan 2020

Khazana Jewellery

Chennai, India

- Coordinated ATL/BTL branding campaigns across 48 retail outlets in South India, ensuring consistent execution against corporate guidelines.
- Managed seasonal campaigns with external media partners, tracking timelines and deliverables through to completion.
